Select time slot

Time Slot

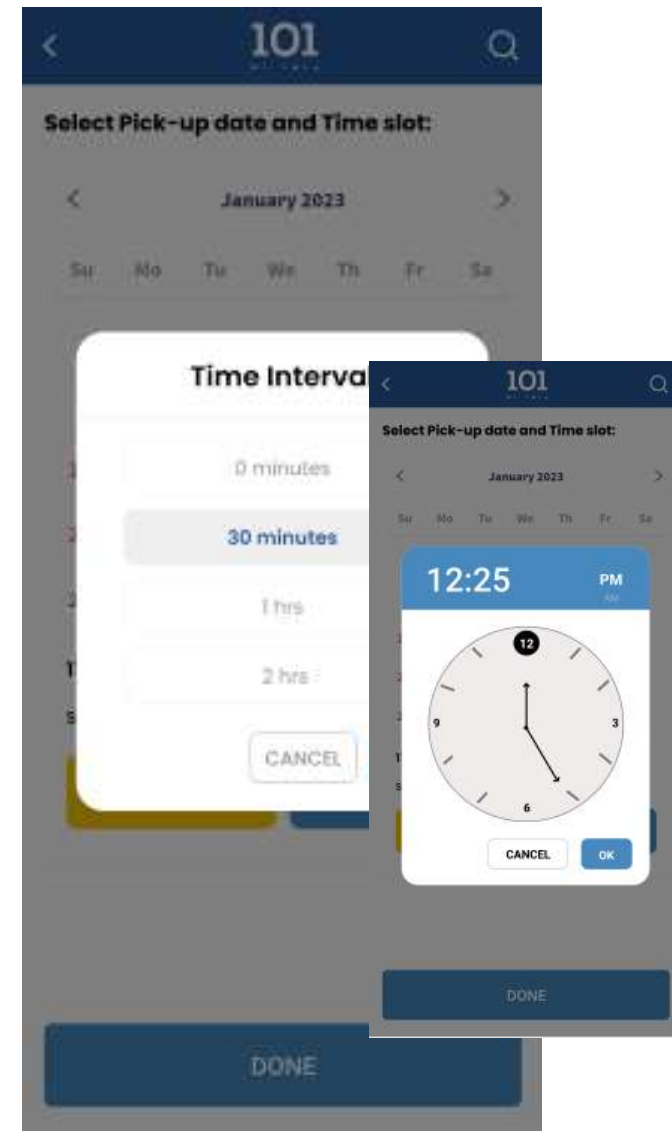

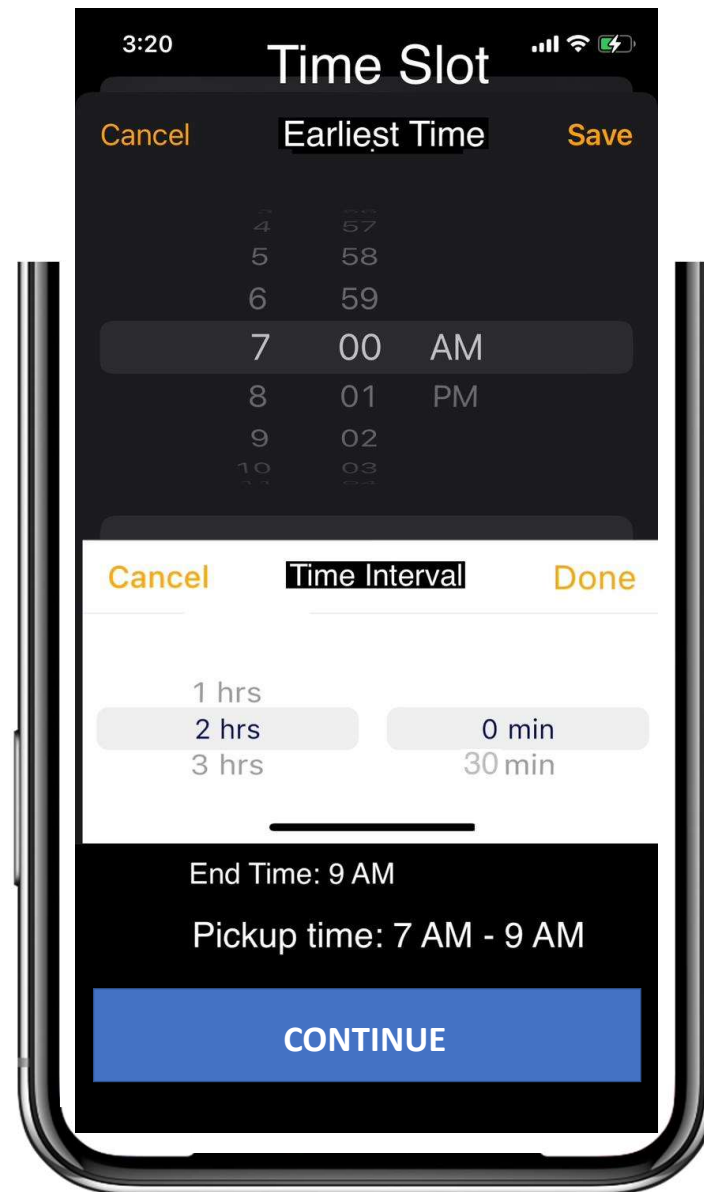

Interval

Pick-up time: 8 AM to 10 AM

Pick-up date:
(Calendar)

That's how dealers should place Time Slot for pickup duration. They only have to choose "Earliest Time" system automatically adds two hours and does calculations. Dealer can adjust time interval from 1h - 8h or minutes 30min.

Basically once done this user understands that it has a time window and ONLY thing you really must do is to choose a pickup time.
